FastLane

Streamlined access to European capital markets for SSA issuers

FastLane is a unique service tailored for our Euro MTF market. Designed for global sovereign, sub-sovereign and agency (SSA) issuers, FastLane offers a streamlined admission process, simplifying your access to European investors.

Euro MTF

The listing solution for international issuers

Accounting for 40% of all the securities listed on the Luxembourg Stock Exchange (LuxSE), Euro MTF is the largest Multilateral Trading Facility (MTF) of its kind in Europe, with over 16,000 active listings. As a wholly recognised market, Euro MTF appeals to a broad spectrum of international issuers – from sovereign and sub-sovereign entities to leading financial institutions. Entirely regulated by LuxSE, Euro MTF provides issuers with a flexible, cost-effective solution that caters to varying needs, while offering limited admission and reporting requirements.

FastLane

Streamlined admission process for SSA issuers

FastLane streamlines the admission process on Euro MTF by introducing an exemption for eligible issuers and securities from the formal prospectus approval by LuxSE, ensuring increased efficiency, speed and simplicity. LuxSE conducts a limited review of information, such as terms and conditions, and other publicly available information about the issuer. Standalone issuances and programmes by sovereigns and their regional or local authorities, among others, are eligible for FastLane.
